

## PRESIDENTIAL BRACKETOLOGY

For each “game” in the brackets, you must pick a “winner” who was the better president. A focus should be on the accomplishments and failures of each president / individual.

*You must also include a 1-2 sentence explanation of why the winner was a better president than the man he defeated.*

This holds true for all of the matchups until you have a champion president.

**"Upsets" are possible and not discouraged.** The seeds are in place according to numerous surveys of historians, and so long as your choices are based on historical information, you can proceed as you see fit.

**In order to receive full credit for this assignment, you must attach your brackets showing all of your matchups and winners.**
